

# EPILOGUE – 2015

## *Madame Ghis – Escape in Prison*

Seven years have gone by since Ghis' release from prison, followed shortly thereafter by her citizen death.

The book *Madame Ghis – Escape in Prison* narrates this legal and penal saga. It also gives a detailed account of the extraordinary consciousness in which these events took place. Stepping outside of the usual winner/loser duality, it describes Ghis' total surrender to her soul's will, without expectations or guarantees.

However, as the book ends before Ghis' final trial, it leaves us wondering what happened afterwards. Here is the missing epilogue to her captivating story.

### The Trial

As was agreed, the trial of the judicial entity LANCTÔT, GHISLAINE took place on the 20th of January 2009. I was in the courtroom, since I had given the judge my word on May 28<sup>th</sup>, 2008, when I was released without conditions. I announced the citizen death of Ghislaine Lanctôt and reiterated my identity as a sovereign being with body, soul, and spirit. The judge interrupted me and declared that he was there to hear the case of GHISLAINE LANCTÔT. So, I simply left the courthouse, and the trial took place in my absence. The judge delivered the following sentence: "I impose the minimum: one thousand dollars (\$ 1000), with a maximum delay of two years and no court costs." For more details, read the written (French only) transcription here:

### The Newspaper

On January 21<sup>st</sup>, 2009, the headlines on the first page of the regional newspaper *La Voix de l'Est* repeated Ghis' words: "I am not a slave".

The day before, two events took place concurrently: the trial of GHISLAINE LANCTÔT and the swearing in of BARACK OBAMA. The first was related to the self-liberation of a slave; the second celebrated the inauguration of a new dictator for slaves. Two opposite worlds!

There was even a car ad at the bottom of the page that read: "You want to be different? It's done!" Divine Grace is good-humoured and likes to play unexpected tricks! In the article, the journalist answered the obvious question (Will Ghis pay the fine?) in the following manner: "For her, there is no question of paying." Here is the article (French only):

### Comments

Since the trial, comments have been raining down. Some people say that **I have won**, since the judge did not ask LANCTÔT GHISLAINE to file an income tax return (this would have started new legal proceedings). My answer to this comment is always the same: "I did not win; I did not play."

A trial is like a cockfight in a barnyard. There is always a winner and a loser. The strongest wins, the weakest loses. Who is the strongest? It is the one writing the laws, controlling the police force, and nominating the judges. Remember that laws are not made for lawmakers, but for citizens who fall under the jurisdiction of both Common Law and Maritime Law. A citizen has no chance of winning if he fights against the legislator, even with a rightful cause. That is why I did not play. So, what did I do?

I placed myself above human law, where truth is found. I refused to wage the ego's war. I removed the deciding power from my ego's hands and transferred it to my soul, the only true sovereign, the supreme authority found inside me. Since then, I have been living under the governance of my soul. I have given her free rein and I surrender to her will without knowing what she will decide. I can give you my secret: no expectations of any kind!

Other persons think that **I have made a good deal** by erasing 15 years of income tax with two months in prison. It might seem an attractive solution. Most people consider income tax as a necessary evil and try to give as little as possible. Money is their main concern. I see things differently.

As long as I believed that income taxes were used for the public good, I always paid them without complaining. The day I found out that 100 % of income taxes went directly in the coffers of the world bankers in order to pay the interest on a false debt, I stopped paying and filing income tax reports. Since I had found my real identity as a sovereign being, I could no longer behave as a sheep and send an inventory of my wool to the shepherd. It was a problem of consciousness.

On the financial level, a quick calculation (page 137) proved that the government is saving a lot of money with my refusal to accept privileges such as old-age pension and health insurance. This amounts to \$ 28,255 a year. The question remains: who is really getting a good deal?

## Individual Sovereignty

We are living in a world of illusion where everything is false, including the use of the word "sovereignty". The dictionary offers a clear definition: supreme authority. "Authority" is the power to command and "supreme" is what lies over everything else. A sovereign holds the supreme power. Such a power is irrevocable, immutable, unlimited, and cannot be lost – except if it is false. This is why countries lose their sovereignty, why kings are deposed, constitutions violated and "sovereign citizens" thrown in jail. These are all false sovereignties.

So, where can we find real sovereignty? It lies in the soul of each individual, since this is the creative spirit residing inside matter. If such is the case, why is a human being treated as a slave? Because he has forgotten who he is. He believes that he is a poor creature, the product of an external creator. Separated, he is fearful and gives away his omnipotent power to a master against a promise of security and protection. Alas, his master is both voracious and abusive towards his servant, who eventually resists and defends himself. War ensues between governor and governed, dominant and dominated. This is the infernal hierarchy that we have been experimenting for millions of years.

The most courageous citizens fight to regain their freedom. Some choose new masters; others improve the present ones or force them into strict limits; still others dare to give them lessons in legality. Such efforts bring severe beatings. Citizens are ready for anything, even submitting to a good dictator, but they obstinately refuse to let go of citizen slavery. Their deeply ingrained herd-animal program incites them to remain submitted to a country, a planet, or a religion, despite endless failures at casting off their yokes.

And yet, the only real power rests inside each individual. The change of governance from body to soul brings the union of authority and obedience. The soul dictates the actions and the body blindly obeys. War stops. The sovereign person does not worry about external authorities. Guided by his soul, he travels down his own individual road in peace and joy. This vibration of sovereignty is omnipotent and nothing can resist it. It is beyond laws – human and others. This is how I lived during my legal and prison experiences. I surrendered my will to my soul, not knowing what would happen to me. No recipe, no method, no improvement can bring freedom to the State slave we call citizen. The only thing that will is a transformation of consciousness.

## Citizen Death

Along the path of citizen death, the teenage citizen transforms into a sovereign adult. As long as a child lives with his parents, he must submit to their laws. To become free, he needs to leave the house and become independent. Most prefer to remain with mom and dad, and try to change them. The same goes with a human being and his relationship with Daddy-State. The time has come for us to become adults and free ourselves from this thousand-year-old system of slavery. But, we are afraid and hesitate to jump into the unknown. Luckily, the authorities help us by making our living conditions so unbearable that we eventually ask ourselves the basic question: “Who am I?” That is when we discover our real identity as sovereign beings.

Now, the process of surrender can take place. I let go of everything I am not, including my participation to all established systems: religion, politics, law, economy, finance, health, family, science, education, society. Actually, they are all falling apart. Will I collapse with them? No! I decide to change my behaviour in all areas of my life. Eventually, after a long preparation and progressive steps, I am ready for citizen death. (See Personocratia Booklet *Society towards... Paradise-on-Earth*.)

People often ask me how I can live outside the system. I answer: “Like everyone else! I still live in society.” Our animal memories make us believe that there are only two solutions: a submissive, well-fed domestic animal or a free, puny wild animal. Nevertheless, we are not animals. We can remain part of society while being free and enjoying good living conditions. To succeed, we need to totally change our behaviour. Let us learn to think, talk, and act as sovereign beings. Let us leave the old world of lies and go towards the world of truth – one step at a time.

When I propose this solution, I am told: “This is too big. It’s not for me!” I answer: “You can change little things in your own small way. At least, do something!” (See the Personocratia’s Booklets series.) It is time to go beyond simply improving our miserable lives in this air-conditioned hell-on-earth! Not only is individual sovereignty desirable, it is inevitable for anyone who wants to experience true freedom. Soon, we will be forced to choose between the citizen death of free beings and the security of domestic animals. The decision lies in our own hands.
